

FREYA DALSJØ

Freya Dalsjø is a Copenhagen based fashion label designed by Freya Dalsjø, Karis Dalsjø and Mikkel Schou.

We specialise in developing intricate craftsmanship, rooted in a sustainable practice.

We work solely with natural materials of the highest quality, such as wool, cashmere, silk, leather and silver.

We work with textile leftovers from Italian or French luxury houses, or directly with a few Italian or Spanish suppliers; Colombo, Raphael, Taroni, Teseo and La Doma.

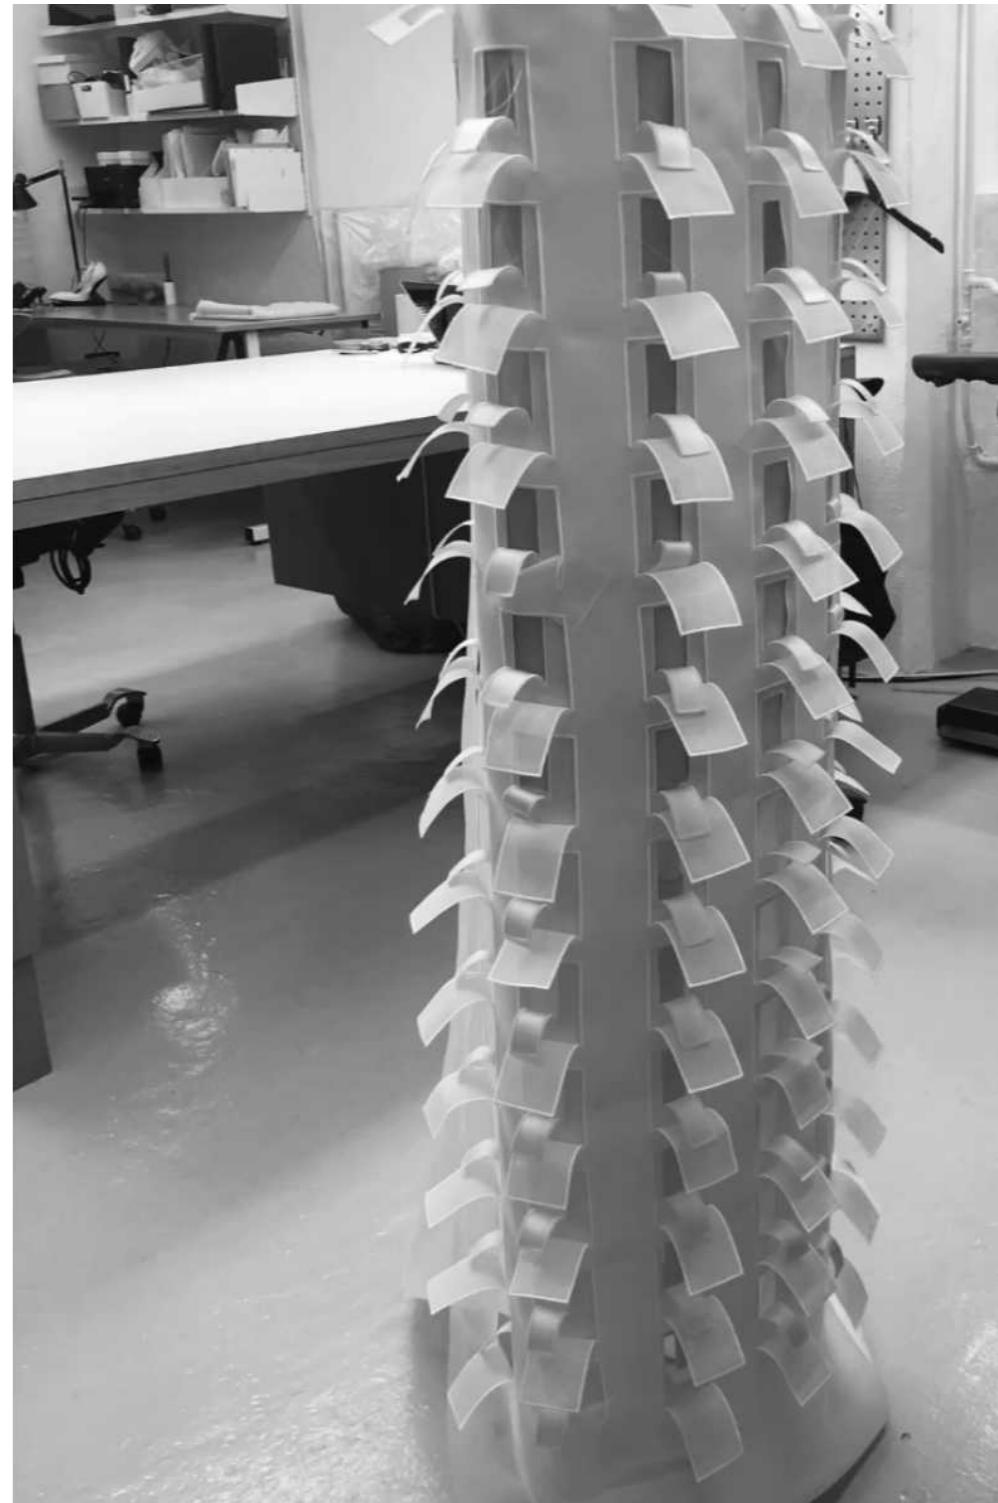

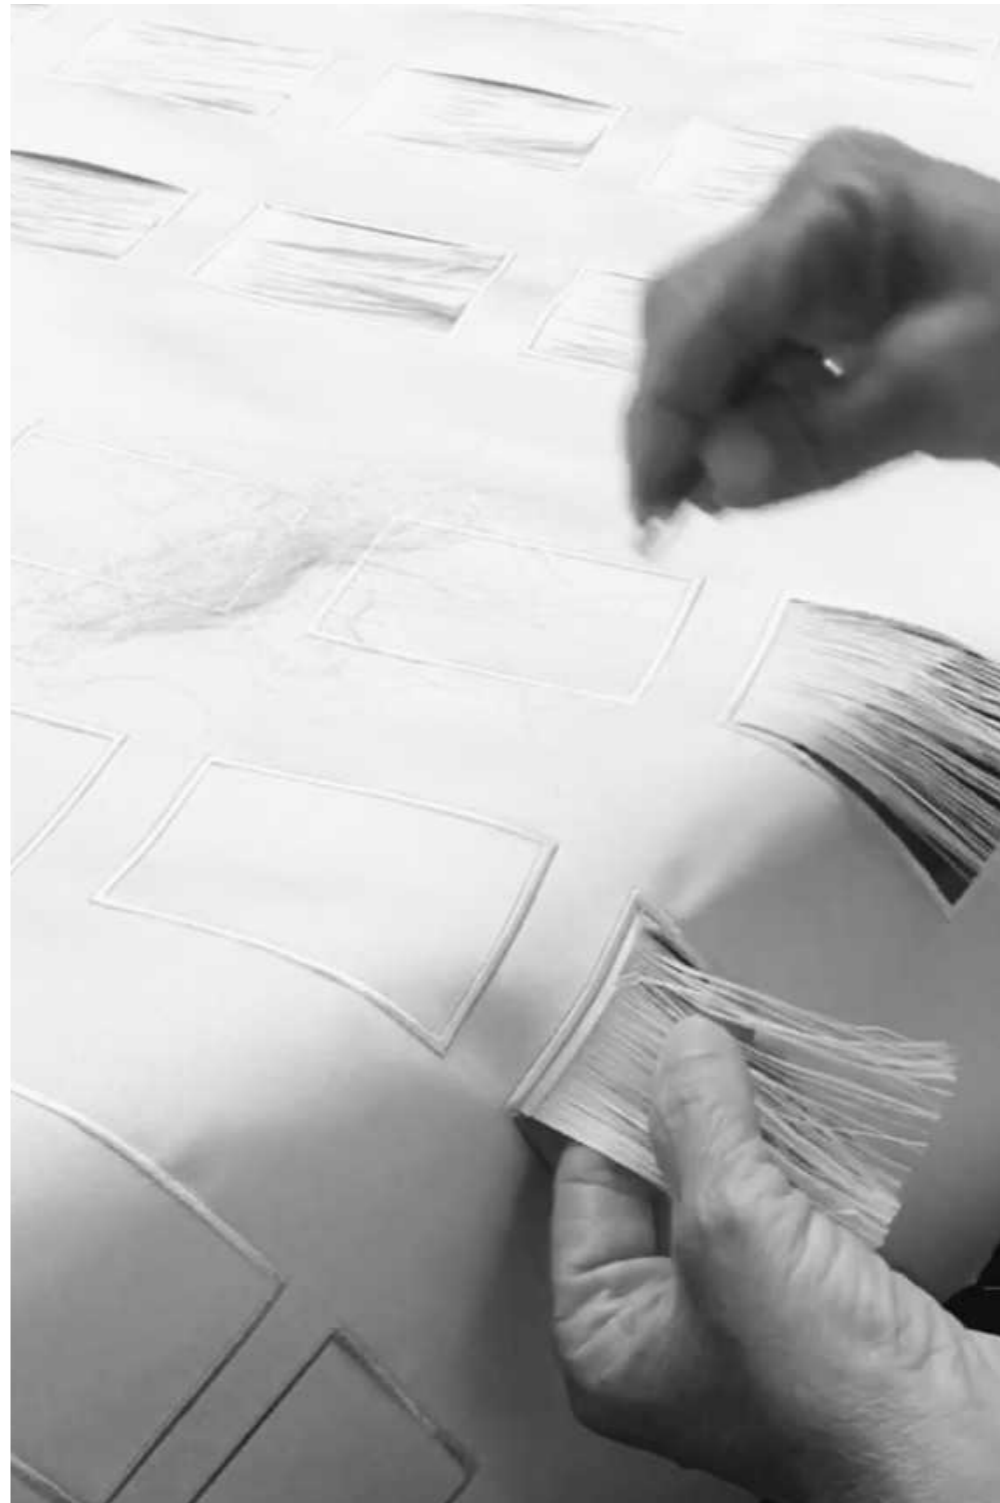

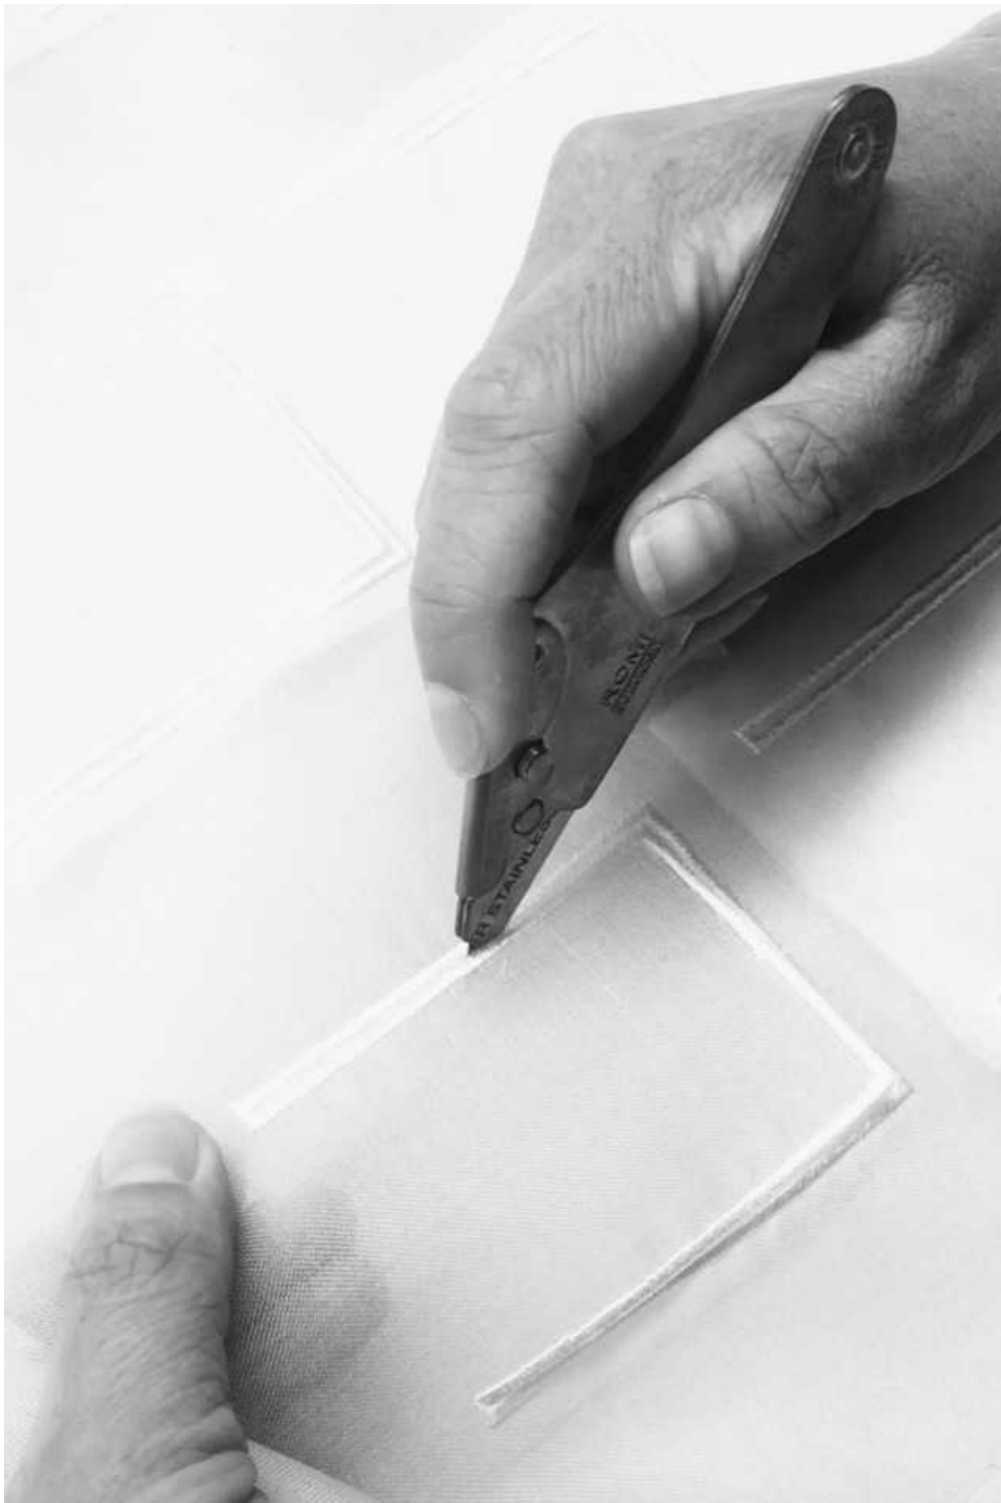

We develop our works at our Copenhagen based atelier and in collaboration with specialised top manufactures around the world.

This season we are presenting styles of intricate craftsmanship in leather. Silver and gold jewellery is crafted at our atelier in Copenhagen.

We strive to create objects of high aesthetic value, develop distinct and intricate handcraft through reworking traditional high end textiles. We aim to create sculptural yet delicate works with intricate detailing. Our silk work is embroidered at London Embroidery Studio and hereafter finished by hand in our atelier in Copenhagen.

With our doubleface wool collection we attempt to create essential wardrobe staples, long lasting in quality and design. The development of these pieces is ongoing and the pieces stay available; they are not attached to a specific season.

Pieces that meet the practical demands of an everyday wardrobe. Pieces that wraps the body in comfort.

Our development process is careful and considerate, and pieces are added to the collection when we feel they are ready. We are creating a collection of pieces that you can mix and layer.
